# Mayuri Jadhav

Solapur, Maharashtra
+91-9307320618 | mayurij0306@gmail.com | LinkedIn | GitHub | Portfolio | LeetCode

## EDUCATION

**Walchand Institute of Technology, Solapur** **2023 – 2027**
*B.Tech in Computer Science and Engineering* ***(CGPA: 9.29)*** *Solapur, Maharashtra*

## SKILLS

**Languages:** C/C++, Java, Python, JavaScript, TypeScript, Kotlin
**Web & Backend:** React, Next.js, HTML5, CSS3, Flask, FastAPI, Streamlit, REST APIs
**AI / ML:** Generative AI, LLMs (Llama, Mistral), Retrieval-Augmented Generation (RAG), ChromaDB
**Databases:** MongoDB, PostgreSQL / PostGIS, SQL (DBMS)
**Tools & Mobile:** Git, GitHub, Docker, Mapbox GL JS, Selenium, Kotlin & Flutter (app development)
**Core CS:** Data Structures & Algorithms, Computer Networks, OOP, Microprocessors & Computer Architecture

## EXPERIENCE

**Ai Unika** **June 2025 – December 2025**
*Full Stack Intern*

- Built and shipped full-stack features for multiple client-facing web products using **Next.js, React and MongoDB**, across frontend and backend.
- Integrated third-party and internal APIs and developed interactive UI components, product walkthroughs and user workflows.
- Implemented **Mapbox**-based geospatial features: interactive maps, dynamic layers and real-time plotting.

## PROJECTS

**Offline Multimodal RAG Chatbot** | Python, Local LLMs, Vector Search **2025**

- Built a fully offline RAG chatbot that answers questions over **images, PDFs and audio** with no cloud dependency, keeping user data on the device.
- Designed a separate ingestion pipeline for each modality, all feeding one shared vector index for retrieval.

**Predictive Intelligence System for Landfill Fire Prevention** | React, TypeScript, FastAPI, PostGIS, Docker **2026**

- Final-year project: building a spatial analytics platform to predict subsurface fire risk at the Tuljapur Road landfill, Solapur, across ∼1,600 grid cells (10 m × 10 m), shown on an interactive map dashboard.
- Combining a methane decay model (LandGEM), live weather and satellite data, with a secure FastAPI backend (JWT auth) deployed using Docker Compose and Nginx.

**FinanceGURU: Finance Chatbot** | Python, React, Flask, ChromaDB, Mistral AI **2025**

- AI chatbot for personalised Indian financial planning giving age- and goal-based advice across equity, gold and savings, using RAG; **Top 50, Mercer Mettl Hackathon 2025**.

**Chatbot for Department of Justice Website** | Python, Llama 3.1, Streamlit **2024**

- Multilingual RAG chatbot with conversational memory for the Department of Justice of India website, deployed on Streamlit; **Grand Finalist, Smart India Hackathon 2024** (Team Lead).

## HACKATHONS

- Grand Finalist, Smart India Hackathon 2024 (Team Lead)
- Top 50, Mercer Mettl Hackathon 2025 (FinanceGURU)
- Semi-Finalist, Thales GenTech India Hackathon 2024
- Top 5 among 60 teams, Innovation TechFest, CCOEW , Pune

## CERTIFICATIONS

- 100 Days of Code: The Complete Python Pro Bootcamp – Udemy
- NPTEL: Developing Soft Skills and Personality (Silver Medal)

## EXTRACURRICULAR

- Contingent Leader, Mood Indigo, IIT Bombay (2023)
- National Service Scheme Volunteer (2024 – 2026)
